

## PARISH COUNCIL NOTICE

### TEMPORARY TRAFFIC LIGHTS – PEONY COTTAGE AFFPUDDLE

A three-way temporary traffic light system has been installed on the B3390 to allow building work to be carried out at Peony Cottage following a house fire. These lights are likely to be operating for some 8 months from mid-February 2019.

As residents will be aware this is a busy section of road, made more dangerous by visibility issues created by the Z bend.

#### **What to do if the lights are not working?**

The phone number to report any malfunction to the contractor does appear on each traffic light. This number is **07971 087167** and will get you through to a 24-hour helpline to report technical issues with the lights themselves. It is not a Dorset County Council number to get through to Highways and cannot be used to report other issues or concerns.
